

SOCIAL AND SUSTAINABLE SKILLS FOR YOUNG NEET POPULATION

THE PROJECT

SOSUSK is meant to face the challenge of mobilising a transnational population of European young Neither in Employment or in Education or Training (NEETs), providing them with social and green entrepreneurship skills and competences. The purpose is to ease their match with sustainable opportunities for employment or self-employment.

The SOSUSK partnership believes that, investing in decent job creation in the green and social entrepreneurship sectors, as well as in digital education and training opportunities for the youth, will contribute to the development of more prosperous and stable societies.

For this purpose, the partnership will be working on innovative learning and training opportunities willing to empower a large network of NEETs, youth organizations, and career services. With the ultimate goal of bringing out and enhancing the European NEETs entrepreneurial talents.

OBJECTIVES

- To promote digital education among young people
- To foster the acquisition of new competences by the NEETs
- To improve the social inclusion of NEETs,
- To enhance digital skills and competence development on NEETS.
- To ingrain the green and digital transition
- To support young people to transform their ideas into start-ups
- To facilitate innovative learning practices
- To promote practices based on the sustainable and inclusive growth
- To equip organizations with working tools to invest in young people
- To create a space for European organizations to network

PROJECT NUMBER – 2021-1-EL02-KA220-YOU-000029015

SOCIAL AND SUSTAINABLE SKILLS FOR YOUNG NEET POPULATION

PROJECT RESULTS

1st PROJECT RESULT

Good practices collection and analysis on innovative digital learning methods.

The Good Practices selected will be summarized and categorized according to thematic and similarities. The main purpose of the report is to serve the project consortium as a basis for the platform content.

2nd PROJECT RESULT

E-Learning toolkit for green and social entrepreneurship

The e-learning toolkit aims to incorporate innovative digital learning methods in the learning process which will be extremely useful for all, providing the opportunity to the target group fostering their skills and economic growth with positive impact to society, environment and economy.

3rd PROJECT RESULT

Web-based accelerator program

The web-based accelerator program is an interactive education platform for early-stage social and green entrepreneurs. This web platform will include all the modules of the e-learning toolkit on digital format, definitions on social and green entrepreneurship, guidelines on how to establish an enterprise as well as information about the project and its outcomes.

PARTNERS

SOSUSK activities are implemented by a consortium composed of seven partner organisations from seven different European countries: Greece, Croatia, Belgium, Italy, Bulgaria, Romania, Poland.
